CRITICAL ILLNESS COVERAGE FOR YOUR SUCCESSFUL RECOVERY AND PEACE OF MIND

People are living longer lives due to healthier lifestyles and advances in medical science which results in a greater number of people surviving illnesses that were once fatal. While we are beating the odds, an alarming number of Canadians will suffer a critical illness in their lifetime. For example:

- 1 in 2 Canadians will contract some form of Heart Disease
- 1 in 3 Canadians will develop some form of life threatening Cancer
- 1 in 4 Canadians will suffer Kidney Failure
- 1 in 20 Canadians will run the risk of having a Stroke before age 70
- 1 in 500 is the incidence rate for Multiple Sclerosis

But, having survived a critical illness, many people are unable to swiftly return to school and are in need of special medical attention or other care. Until recently, coverage for such unexpected needs just wasn't available and while disability insurance provides income protection, it doesn't adequately provide financial assistance for such expenses as:

- Convalescence
- Lifestyle Changes
- Home Modification
- Supplementary Income
- Medical Expenses (*not covered by government or private health plans*)
- Home Care
- Pension Supplement
- Dependent Care

ACE INA Life Insurance Group Critical Illness program was developed to address these needs and therefore alleviate some of the stress and financial burden resulting from a critical illness.
